About the College

Broward Community College was established in 1960 as a state-supported two-year college. Today, BCC has three campuses and three centers in Broward County with an enrollment of over 50,000 students. The college is fully accredited by the Southern Association of Colleges and Schools.

BCC's instructional program prepares students to enter the upper division of senior colleges and universities or to make immediate entry into careers.

Broward Community College is a member of the Southeast Florida Educational Consortium which links together colleges and universities in South Florida to provide improved educational opportunities, smoother student transfer from the community college to the upper level college or university, and easy access to institutional services for students and faculty.

Members of the consortium are:

Barry University,
Biscayne College,
Broward Community College,
Florida Atlantic University,
Florida International University,
Miami-Dade Community College
and Nova University.

North Campus

Just west of the Pompano Beach exit to the Florida Turnpike, the North Campus at 1000 Coconut Creek Blvd., occupies 113 acres. The first building was completed in the summer of 1970 and other buildings, added during succeeding years, are connected to each other by broad ramps surrounding a pleasantly landscaped quadrangle. In 1980, a multi-purpose teaching auditorium gymnasium—the Omni—was dedicated. Parking is available on three sides of the main cluster of buildings. Playing fields, including tennis courts, raquetball courts and a baseball diamond, lie to the north and west of the Omni.

Central Campus

Located on Davie Road south of State Road 84, east of University Drive and west of I-95 and the Florida Turnpike, Central Campus contains 152 acres. In addition to housing the beautiful Ralph R. Bailey Concert Hall, Central is the home of the Criminal Justice Institute, a modern Allied Health Building, an aquatic complex, Buehler Planetarium and Observatory and a series of buildings to support the many academic and technical programs offered at the college. Since the first building was completed and occupied in 1962, Central has grown to more than 20 buildings housing 42 academic departments offering over 80 degree programs. Each year, approximately 30,000 students avail themselves of the many opportunities offered on the Central Campus.

Judson A. Samuels, South Campus

Judson A. Samuels, South Campus at 7200 W. Hollywood/Pines Blvd. is located on 103 acres on the N. E. corner of North Perry Airport. In existence since 1977, the newest, smallest, and fastest growing of BCC's three campuses is able to offer a full range of programs and services. This campus will by 1983 house a unique cooperative project in the $5,000,000.00 college/county Joint Regional Library.

In addition to the traditional academic and technical programs which include Business, Data Processing, Nursing, and college parallel courses, the South Campus has the only Transportation and Aviation curriculum in the college.

Who Attends BCC?

As a public community college, Broward Community College was established to serve the many needs of Broward County residents. Also, as one of the fastest growing areas in the United States, Broward County has a population originating from all over the world. These residents bring backgrounds of varying experiences and expectations. The college is a comprehensive community college which seeks to serve this diverse population. The responsibility for this service to the community extends to all persons, but in particular to the following broad groups of residents.

Graduating High School Students

Those persons wishing to continue their education for transfer or career pursuits.

Working Adults

Those persons having needs as listed above and perhaps additionally seeking career upgrading or refresher training.

Non-Working Adults

Those persons contemplating a return to education to expand their career potential or to expand their knowledge in specific interest areas.

Senior Adults

Those persons who may have needs as outlined above and additionally wish to explore new areas of enrichment and interest.

Broward Community College is committed to open door admissions and the concept of equal access, equal opportunity and operates with a real sense of "COMMUNITY" as its middle name.

Associate in Arts Degree What is it?

The Associate in Arts Degree provides the courses of study equivalent to those offered to the freshman and sophomore students in the lower division of Florida's state universities. If students receive the Associate in Arts Degree from Broward Community College, their degree will, in most cases, meet the lower division requirements of a university and will admit them to the junior-level status. The degree requirements consist of the general education requirements which parallel the universities' requirements and electives in preparation for a major area of study.

Students are encouraged to contact the specific institution to which they wish to transfer regarding that institution's unique requirements. Specific information concerning transfer to Florida state universities is available in the Counseling and Advisement Office.

Program Sheets recommending courses for specific majors and programs are available in the Counseling and Advisement offices on Central, North, and South campuses, in the following areas. Students are encouraged to contact the Counseling and Advisement Office for individual assistance in program planning.

The AA Programs are as follows:

- Agricultural Sciences
- Anthropology
- Architecture
- Art
- Astronomy
- Biology
- Building Construction
- Business Administration
- Business Education
- Chemistry
- Chiropractic
- Corrections
- Criminal Justice
- Data Processing—Computer Systems/Science
- Drama
- Elementary Education
- Engineering
- English
- Food and Nutrition
- Foreign Languages
- Geology
- History
- Human Services
- Interior Design
- Journalism
- Law
- Law Enforcement
- Liberal Arts (undecided major)
- Marketing Management
- Mathematics
- Medical-Dental
- Medical Technology
- Music
- Music Education
- Nursing
- Occupational Therapy
- Oceanography
- Optometry
- Pharmacy
- Physical Education
- Physical Therapist Assistant
- Physics
- Political Science
- Psychology
- Radio-Television
- Recreation
- Religion
- Secondary Education
- Social Welfare
- Sociology
- Speech
- Speech Pathology-Audiology
- Tourism Industries Administration
- Veterinary Medicine

Requirements for Associate in Arts Degree

(University Parallel)

To graduate, students must complete 60 semester hours of academic credit as well as four semester hours of physical education activity courses with a grade-point average of at least 2.0. Of the 36 hours required for general education (Areas 1-6), 6 credits of those 36 hours must be approved International/Intercultural courses. Excluded are special technical courses and courses beginning with the number "0," Special Services courses, and courses carrying institutional credit only. In selecting among Broward Community College's general education offerings and elective courses, students would be wise to consider catalog suggestions of the upper-level institution to which they intend to transfer.

STUDENTS SHOULD SEE PAGE 16 FOR STATE CLAST REQUIREMENTS.

Area 1. English
Composition . . . . . 6 semester hours
(Required of all students)
ENC 1101 COMPOSITION I and ENC 1102 COMPOSITION II or ENC 1240 COMPOSITION II: PREPROFESSIONAL WRITING

Area 2. Humanities . . . 6 semester hours
(Do not choose more than *ONE* course from any category A, B, C, D, E, F, or G)

A. LIT 2030 GR IDEA POETRY, LIT 2020 LIT SHORT STRY, LIT 2311 LIT SC FICTION, LIT 2301 CON ISSUES ART, LIT 2100 FILM AS LIT, LIT 2410 2390 MAL/FEM IMG LT, LIT 2350 CONT BLACK LIT, LIT 2341 MYSTERY FICT, LIT 2110 WORLD LIT, LIT 2120 WORLD LIT, ENL 2013 BRITISH LIT, ENL 2023 BRITISH LIT, AML 2012 AMERICAN LIT, AML 2030 AMERICAN LIT, ENL 2330 INTRO TO SHAKESPEARE, LIT 2935 SEMINAR IN LITERATURE, LIT 2950 thru 2955 TRAVEL/SEMINAR IN LITERATURE.
B. FRW 2100 ST FRENCH LIT, FRW 2101 ST FRENCH LIT, GEW 2010 ST GER LIT, GEW 2011 GER LIT & CULT, SPW 2010 ST SPA LIT, SPW 2011 ST SPANISH LIT
C. ARH 2000 ART APPREC
D. THE 2002 THEATRE W CULT
E. MUH 2111 MUS HIS LIT, MUH 2112 MUS HIST LIT, MUL 2011 MUS WEST CULT
F. PHI 2010 INTRO TO PHIL, PHI 2600 ETHICS
G. REL 2010 INTRO RELIGION, REL 2300 WORLD RELIGION

Area 3. Social and Behavioral Sciences . . . . 6 semester hours
(Select *two* courses from any *one* category: A, B, C, D, or E)

A. WOH 2240 TWENTIETH CENTURY, EUH 1000 WESTERN CIV., or EUH 1001 WESTERN CIV.
B. AMH 2010 US HISTORY, AMH 2020 US HISTORY
C. LAH 1004 TWO AMERICAS, LAH 1005 TWO AMERICAS
D. POS 1041 NATIONAL GOVT, POS 1112 ST/LOC GOVT, or INR 2002 INTERNTL REL
E. ANT 2000 INTRO TO ANTHRO, SOC 2000 GENERAL SOC, SOC 2422 SOCIAL ORGNZTN, SOC 2020 SOCIAL PRBLMS
(any two)

Area 4. Science and Mathematics . . . . 12 semester hours
(Be certain you have proper prerequisites)

A. Science—any 6 hours from the following areas: physical science, astronomy, biology, chemistry, geology, or physics, except courses beginning with the number "0" and courses especially designed for technical education curricula. (Many upper division require a laboratory science.)
B. Mathematics . . 6 semester credits
Six (6) semester credits from the following list provided that MGF 1202 (or its sub-courses) and STA 2013 are not both included: MAT 1033, MGF 1202 (MGF 1204, 1205, 1206), STA 2013, MAC 1132, MAC 1133, MAC 2311 (MAC 2301, 2302), MAC 2312 (MAC 2303, 2304), MAS 2103, MAP 2302. A grade of "C" or better in the courses must be achieved to satisfy the requirement.

Area 5. Additional Requirements . . . . . 9 semester hours
According to requirements in a respective field, any courses from A through H.

A. Modern Foreign Languages
(Most colleges of arts and sciences in upper division institutions require completion of the intermediate level of a foreign language as part of their lower division program.)
B. CLP 1000 PSY OF ADJ, PSY 2012 GENERAL PSY, PSY 2043 ADV GEN PSYCH, DEP 2102 CHILD PSYCH, DEP 2302 ADOLESCENT PSY, INP 2101 APPLIED PSYCH, SOP 2002 SOCIAL PSYCH, DEP 2102, DEP 2302, DEP 2402, DEP 2481
C. MAF 2501 FAMILY
D. ECO 2013 PRIN ECO I, ECO 2023 PRIN ECO II
E. SPC 1024 INTRO SPE COMM, SPC 1600 PUB SPEAKING
F. GEO 1000 INTRO TO GEO, GEA 2040 WESTERN WORLD, GEA 2030 NON WEST REG
G. MUT 1121 THEORY I, MUT 1122 THEORY II
H. Areas 2, 3, 4 (any course from Areas 2, 3, or 4 above)

Area 6. Physical Education (Activities) . . . . . 4 semester hours
(No more than 4 activity courses may be counted toward a degree). Students who are 29 years old or older, or who have had previous military experience, or who are exempt upon medical certification are not required to take HPRD activity courses. Medical certification must specify the term or terms for the exemption.

Area 7. Electives . . . . . 21 semester hours
Any combination of courses from the general education offerings (Business Administration, Cooperative Education, Communications, Humanities, Health, Physical Education, and Recreation, Mathematics and Science, and Social and Behavioral Science) except courses that carry only Institutional Credit (these courses begin with the number "0"), Physical Education activity courses, and courses designed especially for technical education curricula. When choosing electives, students should give careful attention to their major field of study and to the requirements of the institution to which they plan to transfer. Certain technical/occupational courses can be used to satisfy this area requirement.

Area 8. International/Intercultural Education . . . . . 6 semester hours
Of the 36 hours required for general education requirements (Areas 1-6), 6 credits of those 36 hours must be approved International/Intercultural courses. Any combination of courses from the general education offerings that contain a major international or intercultural content and emphasis including appropriate courses taken under Areas 2, 3, 5, and 7 may be used to satisfy this requirement. Only courses certified as international/intercultural may be used to satisfy this requirement. Following are the approved courses:

ANT 2310, ANT 2320, ANT 2920, ANT 2921, ANT 2922, ANT 2923, ARH 2004, ART 2890-2895, BAN 2500, CPO 2140, LIT 2950-2955, ENL 2013, ENL 2023, EUH 1000-1001, EUH 2311-2312, EUH 2572, FRE 1000, FRE 1100-1101, FRE 1170, FRE 2200-2201, FRE 2240, FRE 2400-2401, FRW 2100-2101, GER 1000, GER 1100-1101, GER 1170, GER 2200-2201, GER 2240, GEW 2010-2011, GEA 2030, GEA 2040, HIS 2955, HUM 2700, INR 2002, INR 2956, INR 2957, LAH 1004-1005, LAH 2021-2022, LIT 2110, LIT 2120, MAF 2510, MAR 2240, MAR 2955, MUH 2001, ORH 2950, REL 2601, REL 2300, REL 2600, RUS 1100-1101, RUS 2200-2201, SOC 2940, SOC 2941, SOC 2942, SPN 1100-1101, SPN 1130, SPN 1170, SPN 2200-2201, SPN 2400-2401, SPW 2010-2011, SPN 2240, WOH 1300, WOH 2240, ANT 2000, ANT 2212, HIS 2956, ECO 2002, SPN 1000, ITA 1000, JAP 1100-1101, ARA 1110-1111, SSI 1212, CCJ 2631, ISC

1451, MKA 2955-2956, CHN 1100-1101, HBR 1170-1171, POR 1100-1101.

Area 9. Humanities Writing Requirement
Any combination of courses from Areas 2, 3, 5, and 7 having a "W" indicated on the term schedule. Students shall write a minimum of 3,000 words per course in a variety of assignments germane to the content of the course. A grade of "C" or higher in the courses must be achieved to satisfy this requirement. Twelve (12) semester credits are required. Students shall not be allowed to register for "W" courses unless they have completed successfully or are concurrently enrolled in ENC 1101.

Associate in Science Degree What Is It?

Students may be interested in earning an Associate in Science Degree at BCC. The College offers several programs for students who are interested in preparing for a career that requires study beyond the high school level but does not require a four-year degree. BCC offers many Associate in Science Degree programs. They range from secretarial science programs to health-related programs such as dental hygiene and registered nursing.

When students make the decision to follow an Associate in Science Degree program, they are not necessarily preparing themselves for transfer to a state university. They should understand that their decision will result in earning a degree which should lead to a productive career. If later they decide to attend a university, they may be required to do additional work at the freshman or sophomore level in order to earn enough credit hours to transfer.

In the Associate in Science Degree program which students choose, they will take courses in two basic areas. One area will be their specialized courses. For instance, if they are going to be students in Electronics or Data Processing, they will be taking specialized courses in electronics and data processing.

The second major area of courses which they will take at BCC will be general education. General education courses are designed to help students develop as well-rounded individuals capable of thinking and acting as mature, educated, and enlightened citizens. It is believed that these courses in general education, such as English Composition, will enhance their overall employment potential since it will broaden their knowledge.

Associate in Science Degree programs are described in the College Catalogue. Students can learn additional information about the courses by visiting with counselors or advisors in the Counseling Offices or by contacting the department chairs who work with the programs. Some Associate in Science Degree programs are restricted to one campus.

FINAL RESPONSIBILITY FOR MEETING THE REQUIREMENTS FOR GRADUATION FOR AN ASSOCIATE IN SCIENCE DEGREE RESTS WITH THE STUDENTS. THEY MUST COMPLETE ALL OF THE COURSES AS SPECIFIED IN THE PROGRAM FOR THE DEGREE.

Most A.S. or certificate programs are not transferable to another college or university without the completion of additional academic courses. If students wish to transfer, he or she should discuss this with a counselor or advisor to make certain the program is transferable. **(THESE STUDENTS SHOULD ALSO SEE TABLE OF CONTENTS FOR STATE CLAST REQUIREMENTS).**

Program sheets are available for all Associate in Science and Certificate programs in the Counseling and Advisement Office on Central, North and South campuses and are described in the Academic Division Sections within the Catalog.

Business Studies

Two year degrees at BCC are offered to students preparing for careers in accounting, business management, marketing, secretarial, hotel management and paralegal fields.

These programs are designed for students who intend to enter the business world on completion of studies at BCC. However, all are college credit and many can be transferred to an upper level university. Graduates receive the *Associate in Science* degree. One-year *Certificate Programs* are also available. Business study programs intended for transfer to upper level colleges are listed under Associate of Arts Degree.

Allied Health

The newest building on Central Campus is the Allied Health Building. This two-story building is totally dedicated to the Central Campus' Allied Health Programs. The North and South campuses also offer the Nursing Programs.

Two-year degree programs leading to an Associate in Science degree, or one-year certificate programs are available. These prepare students for immediate entry into careers in nursing and other paramedical fields. For students who wish to study nursing or other courses in medical fields as preparation for transfer to an upper division college or university, programs are offered through University Parallel Programs. Students desiring entrance into these programs need to contact the appropriate department.

Associate in Science in General Studies

The Associate in Science in General Studies (ASGS), degree, is awarded to students who choose not to follow a prescribed program of study. This unstructured program enables students who are undecided about educational goals to study a wide variety of subjects. The ASGS degree permits students to pursue their interests in a concentrated manner. Students are advised, however, that this degree *may not* transfer to senior colleges or universities without additional course work as prescribed by the senior institution. Students should consult an advisor for specific transfer information. To receive the ASGS degree, students must pass English Composition and complete 60 credits of college work. At least 24 credits (including the last 12) must be completed at BCC, with a grade point average of 2.0 or higher.

Open College

Broward Community College offers students the opportunity to take college credit courses even though traveling to a campus may be difficult or impossible. For the convenience of students, Open College presents courses on television, radio, audiocassettes, in newspapers and by directed study. Students may remain at home while taking classes and come to campus only a few times in the term, usually just for the midterm and final examinations.

The variety of courses offered through Open College allows a student to make significant progress toward the Associate in Arts degree from Broward Community College. Each Open College course carries regular college credit, and each is equivalent to the courses offered on campus. Requirements include reading assignments and examinations.

Students and faculty maintain contact with each other by mail and telephone as well as in the on-campus discussion or review sessions and the examination sessions.

All college services, such as library, counseling and cultural events are available to Open College students. The procedure for being admitted to courses in Open College is the same as that for admission to any other BCC course.

Cooperative Education

BCC's Cooperative Education program combines academic study with work experience in a student's chosen career field.

The program is adjusted to the needs of both students and employers. Students can complete degree requirements within two calendar years. Some jobs are full-time, some part-time, for one term or several in succession or in alternating terms.

Students may continue the cooperative education program on transferring to six upper division Florida Colleges or at more than 575 colleges and universities throughout the nation.

After a student successfully completes the first full-time academic term the student may enter the cooperative education program. Students can earn three credits for each term of work. For up to twelve credits during their BCC experience.

Credit for Experience (Experiential Learning)

The assessment of Experiential Learning Program at Broward Community College provides you with the opportunity to earn college credits for the knowledge and competencies you can demonstrate. In this program, the college asks you to relate what you know and/or what you are competent in, to typical college courses, and then assesses your knowledge or competency. This program is coordinated at the college in the Department of Cooperative Education and Experiential Learning.

Continuing Education/ Community Services

Through the Continuing Education/ Community Services Division, Broward Community College offers continuing education programs at each campus and at many off-campus sites. Non-credit courses are primarily offered for persons who desire cultural enrichment, career exploration, vocational proficiency and improved personal efficiency. Credit courses may be arranged at off-campus locations to meet specific group needs in most academic areas.

In addition, Continuing Education/ Community Services offers special lectures for specific groups such as senior citizens and women, as well as seminars, workshops and institutes sponsored in cooperation with civic and business organizations. Each campus has a Women's Center geared to help meet the special needs of contemporary women.

Continuing Education/Community Services classes are self-supporting with the exception of Vocational and Community Instructional Services classes. Vocational classes to up-date job skills of currently employed persons are available at very low cost. Community Instructional Services (CIS) classes are supported by direct legislative appropriation for programs that address seven identified problem areas in the State of Florida, namely: Safety; Education and Child Rearing; Governmental; Human Relations; Health and Health Related; Consumer Education and Environmental. These classes are offered to the public at a reduced rate. A listing of current on-campus offerings can be obtained prior to each term at the Continuing Education/Community Services office or Registrar's office on each campus.

For further information, please call:

North Campus	973-2205
Central Campus	475-6600
South Campus	963-8815

Continuing Education For Health Related Professions

The department is an approved provider for CE offerings for nurses, radiologic technologists, medical assistants, and dental assistants. Many other health professionals attend our workshops, i.e. pharmacists, dietitians, EMT's, paramedics, policemen, social workers, dental hygienists, unit secretaries, and nurse assistants. All health professions are invited.

Home study courses in Pharmacology provide an alternative learning method. A Refresher Nurse Program is designed to assist the R.N. returning to practice. State Board Review Classes are held for graduates prior to examinations. Credit courses on health assisting, emergency nursing, operating room nursing, coronary care nursing and intensive care of the critically ill newborn are offered as well as numerous other topics of interest for non-credit.

Criminal Justice Institute

The Criminal Justice Institute is located on Central Campus where it provides education and training for the Criminal Justice organizations of Broward County. As a certified training center of the Florida Criminal Justice Standards and Training Commission it operates a Police Academy, a Corrections Academy and the state mandated Career Development program. The Criminal Justice Institute also conducts courses to meet the special needs of Broward County departments.

Academic programs are offered to pre-service and in-service students who seek an Associate in Arts in Criminal Justice degree for transfer to the third year of a university. Associate of Science degrees are also available in Law Enforcement, Corrections and Crime Scene Technology for students who want to enter directly into the field.

Honors Program

Broward Community College offers an Honors Program for the superior or highly motivated students. Honors classes are offered on all three campuses.

An Honors Certificate can be earned by taking four or more Honors classes including the Interdisciplinary Seminar.

Students must maintain at least a 3.0 grade point average to remain in the Program. Interested students should contact the appropriate Campus Coordinator.

Cultural Activities

BCC has two magnificent concert halls, the Ralph R. Bailey Hall on Central Campus and the OMNI on North Campus.

Through BCC's Office of Cultural Affairs an expanding series of high quality performances are showcased annually in these concert halls and others throughout the community. From Opera to Broadway shows and concerts of all kinds, Cultural Affairs' International Showcase highlights some of the best performances from around the world.

Under the Student Activities Office a Lecture Series and a free film series are also presented each year.

BCC has a Speaker's Bureau to provide organizations in the community with diverse presentations on a variety of subjects.

All of these programs are aimed at providing BCC students and the community with a rich cultural calendar of events. Our annual **Cultural Programme** details our collegewide activities and is available at no charge.

Scholars Program

Broward Community College awards up to 100 scholarships to graduates of Broward County High schools who rank in the top ten percent of their graduating classes.

These scholarships provide full-tuition waivers for two years at BCC and eligibility for full-tuition waivers for an additional two years at either Florida Atlantic University or Florida International University.

Students must maintain at least a 3.25 grade point average to retain the scholarship. These Scholar Award students are eligible to participate in the BCC Honors Program.

3. ___ To meet the employment requirements of a specific job
4. ___ To discover my career potentialities and competencies
5. ___ To develop management/leadership skills
6. ___ To earn an Associate in Science Degree (to get a job)
7. ___ To earn an Associate in General Science Degree
8. ___ To earn a Planned Occupational Certificate
9. ___ To earn an Associate in Arts Degree (to transfer to another college)
10. ___ To take courses to retain my present job
11. ___ To take courses in order to get a promotion
12. ___ To prepare myself to change occupations
13. ___ To prepare for local, state, national board exams
14. ___ To take courses to keep current in my field
15. ___ Others

B. My goals with regard to PERSONAL DEVELOPMENT are:

1. ___ To explore my talents, skills, abilities and potentials in these areas in order to determine my goals
2. ___ To successfully undergo a transitional period in my life
3. ___ To assist in my personal adjustment
4. ___ To understand myself better
5. ___ To develop my self worth and confidence
6. ___ To meet my physical needs
7. ___ To focus on my personal growth
8. ___ To clarify my values
9. ___ To develop personal strengths
10. ___ To explore/understand my feelings, thoughts and behaviors
11. ___ To explore my attitudes toward marriage, parenthood, and/or divorce
12. ___ To aid in my adjustment to a changed style of living (retirement, changes in employment or marital status, prison release, etc.)
13. ___ To learn more about my health
14. ___ To postpone the time when I will have to become financially independent
15. ___ To focus on my independence
16. ___ Others

C. My goals with regard to SOCIAL DEVELOPMENT are:

1. ___ To become active in the organizational life of the college
2. ___ To take an active leadership role
3. ___ To enhance my abilities in social interaction
4. ___ To learn more about team work, cooperation and group skills
5. ___ To interact with people of various ages and backgrounds
6. ___ To participate in the athletic/recreational program
7. ___ To exercise my social responsibility
8. ___ To develop a social awareness
9. ___ To obtain the education that's expected of me
10. ___ To develop an understanding of other ethnic and social groups
11. ___ Others

D. My goals with regard to ACADEMIC DEVELOPMENT are:

1. ___ To upgrade my basic academic skills (reading, writing, study and/or mathematics)
2. ___ To further develop my communication skills (oral, written and/or non-verbal)
3. ___ To develop my ability for critical thinking
4. ___ To upgrade my grade point average for entry or reentry to a university
5. ___ To prepare for transfer to an upper division university
6. ___ To learn more about my field of interest
7. ___ To pursue an area out of intellectual curiosity
8. ___ To strive for academic recognition (honors, grades)
9. ___ Others

E. My goals with regard to CULTURAL DEVELOPMENT are:

1. ___ To pursue my avocational interests
2. ___ To develop cultural and aesthetic appreciation
3. ___ To develop artistic, dramatic and/or musical talents
4. ___ To develop skills/interests for my leisure time
5. ___ Others

F. My goals with regard to COMMUNITY DEVELOPMENT are:

1. ___ To learn more about shaping/changing the environment
2. ___ To develop the skills to become involved with the community
3. ___ To learn about community problem solving
4. ___ To prepare myself for volunteer community service
5. ___ To learn about the "system" — living with, coping and changing it
6. ___ To develop community leadership skills
7. ___ Others

IMPORTANT: REMINDERS BEFORE SUBMITTING APPLICATION

ALL applicants must thoroughly complete all applicable parts of the application and include the following:

1 A $10.00 check or money order application fee that is non-refundable for all new credit and audit students Returning former non-credit students who are applying for credit or audit must also pay the $10.00 fee (if mailing).

2 Forms are available at the Registrar's Office to voluntarily provide the college with information concerning any disability you feel we should have on record for you

3. TRANSCRIPTS: YOU must request your own final high school and/or college transcript(s) and have them forwarded to Broward Community College Failure to submit your transcripts may jeapordize future registration at Broward Community College.

Points to consider in filing completed application. It is <u>imperative</u> that <u>all</u> spaces are completed unless they absolutely do not apply

1 Social Security Number, Addesses, Dates, etc. are very necessary.

2 The <u>Residency Affidavit</u> should be completed and notarized if applicant has lived in Florida consecutively for at least one year prior to the term he plans to enter **ATTENTION**: The date you began your Florida residency is mandatory and if omitted you will be classified as out-of-state

3 Application must be signed and dated.

4 **TRANSFER STUDENTS**. If you want to have your credits from another institution evaluated and added to your Broward Community College academic record please request this in writing at your campus counseling office. This is necessary <u>only</u> if you are a degree seeking student.

PLEASE DIRECT QUESTIONS TO THE CAMPUS REGISTRAR'S OFFICE

Broward Community College is dedicated to the concept of equal opportunity. The College will not discriminate on the basis of [illegible] national origin, [illegible] in all employment practices or in the admission and treatment of students.

19 _____
Applicant's Signature Date

Broward Community College is dedicated to the concept of equal opportunity. The College will not discriminate on the basis of race, color, religion, sex, age, national origin, handicap or veteran's status in its employment practices or in the admission and treatment of students

Semester-in-Spain Program

The Broward Community College Semester-in-Spain Program has been in operation since 1979, and over 150 students have participated to date. The program is offered to provide students with the opportunity of studying in a foreign country at reasonable cost. Participating students live and attend classes in the beautiful city of Seville, Spain.

The program is open to students of all ages. Because the principal language of instruction is English, proficiency in Spanish is not a requirement for participation. Students earn 15-18 BCC credits per semester. Spanish is offered at the beginning, intermediate, and advanced levels, and several additional courses relating to the history and culture of Spain are available each term. Participants have a choice of housing options; they may live with Spanish families, in pensions, dormitories, or apartments.

The program is offered twice each year during the fall and spring semesters. The approximate cost is $1200 plus air fare and regular BCC tuition.

BCC also offers semester-length overseas academic programs in London, France, Italy, Germany, Ireland, and Israel, as well as several short-term study-tours during the summer term. For information on any of these study-abroad programs, contact the Division of International Education: 973-2206.

Admissions

Admissions to the College is based on a number of considerations, no one of which is the determining factor in deciding an applicant's eligibility for admission. Certain records and forms are required before a person can be unconditionally admitted to the College.

Here are the steps in applying for admission to Broward Community College:

1. Complete the Admission form included in this Viewbook or contact any Campus Registrar's Office.
2. Complete all forms according to instructions given, and return them to the Campus Registrar's Office or mail to address on the application form.
3. Upon a review of all required information submitted by the student, the College Registrar's Office then will communicate the decision of the College concerning his/her admission.
4. The College will accept qualified applicants on a space and staff available basis. Broward County residents will be given priority. The College reserves the right to deny admission to any applicant when appropriate ideals of scholarship and deportment are jeopardized.

Athletics

Broward Community College is a member of the National Junior College Athletic Assoication and the Florida Community College Activities Association. Broward Community College has varsity teams on:

North Campus
Men's Basketball, Tennis, Volleyball, Softball.

Central Campus
Soccer, Baseball, Women's Basketball, Men & Women's Swimming & Diving, Women's Tennis, and Men and Women's Golf.

Besides varsity programs, each Campus offers intramural and extramural sports for students who want to participate in athletics but not as members of highly competitive intercollegiate teams.

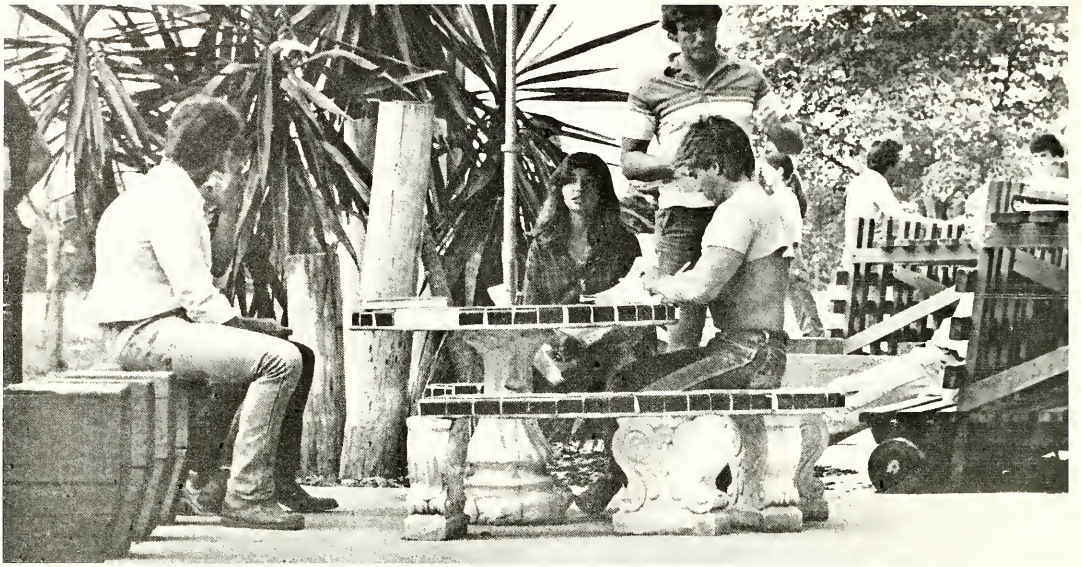
Student Activities

Bowling, ice skating, rollerskating, sailing, volleyball, racquetball, tennis, intramurals, extramurals, golf, basketball, swimming, drama, art, dance, debate . . . the list of student activities is seemingly endless at Broward Community College.

BCC has two symphony orchestras, two youth symphonies, three student newspapers, a percussion group, a string orchestra, an opera workshop, a jazz group, and clubs with an interest in poetry, anthropology, horticulture, karate, judo, chess, ping pong, black awareness, wrestling and foreign students.

Social sororities and fraternities are active as well as business and honorary academic organizations and a student council.

Students are encouraged to become involved in activities related to their academic studies and to their general interest.



General Admission Requirements

1. Properly completed Application for Admission form.
2. Graduation from an approved high school or equivalency diploma (GED). To earn a GED, one must earn an average score of 45 with no scores less than 40. Students interested in taking the GED should contact one of the Broward County Adult/Vocational Centers. These Adult/Vocational Centers are part of the School Board of Broward County, not Broward Community College. Individuals not meeting the above requirements may qualify for SPECIAL STUDENT ADMISSION. Please refer to section on SPECIAL STUDENT ADMISSION.
3. Affidavit of Residency, if legal Florida resident.
4. Application fee $10.00 (for credit and audit students enrolling in credit courses). Non-refundable.
5. A student whose attendance at the College is interrupted may apply for readmission and if readmitted, will be subject to the rules and regulations that are in effect at the time he/she applies for readmission. Students out for more than one year must update their residency affidavit at the time of registration.

Registration dates are listed in the College Calendar. Students who enroll in a course after instruction has begun are at a distinct disadvantage. They are responsible for assignments and instruction which they have missed. Consult the College Calendar for the last day to register.

6. Official transcripts of all educational records are required from all students who plan to earn a degree or certificate at Broward Community College.
   a. High school graduates (no previous college) must submit an official transcript from their high school indicating their graduation date.
   b. Transfer students who have attended another college or university must submit all transcripts from all institutions of higher education attended.
7. Students not planning to earn a degree or certificate at Broward Community College are not required to submit official transcripts of their educational record. These students must meet the general admissions requirements as noted above and if they have previously attended a college or university, they must be eligible to return. The students indicating they are non-degree seeking on the application are affirming that they meet these requirements when they sign the official Broward Community College Application for Admission. Non-degree students may change their status by a written request submitted to their campus Registrar's office. When this occurs, all transcripts required as noted above in No. 6 must be in the Registrar's Office prior to the degree seeking student's next registration.
8. Evidence of good character.
9. Complete information on the application for admission is required. Incomplete information will cause rejection of the application. False information will subject one to immediate dismissal without refund of fees paid.

The College reserves the right to request a physical, psychological, or a psychiatric examination from an applicant or student at any time that such course of action would seem to be in the best interests of the student and/or the College. Expenses incident to such an examination are the responsibility of the applicant or student.

Special Student Admission (Students with No High School Diploma or General Equivalency Diploma)

Special students not eligible under any of the above conditions who are 18 years of age or older may be provisionally admitted on probation. This probation condition remains until one has completed 12 semester hours credit (usually 4 courses) and has earned at least a C average. Meeting this requirement is considered by the College as sufficient evidence of equivalency to a high school diploma or the General Equivalency Diploma. Upon successful completion of this requirement the student's special status will be changed to that of a regular student while those not making the C average on their first 12 hours will be suspended for at least one term. Students suspended under this policy may apply for readmission to the College after one term and may be readmitted to specific college programs as prescribed by Florida Statute 240.321. Please contact a campus counselor advisor for the details of the alternative available for readmission.

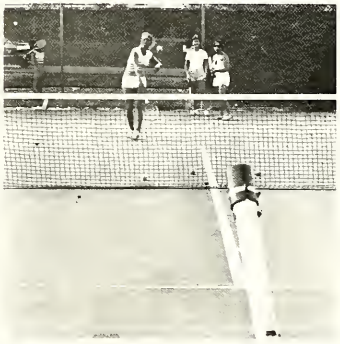
Special Admissions Situations Students Still in High School

Superior high school students who meet the following requirement may attend Broward Community College prior to their high school graduation:

Dual Enrollment—Superior high school students who have completed the 11th grade and lack only a very few courses to graduate may be admitted if they have earned an overall high school grade point average of at least 2.8 and have a written approval of the high school principal and the guidance director. These students attend their high school and Broward Community College during the same term or terms.

Early Admission—Superior high school students who have completed the 11th grade, have earned an overall high school grade point average of at least 3.0, and obtained the written recommendation of both their high school principal and the guidance director may be admitted to the early admission program. This admission is contingent upon the successful completion of at least twenty-four (24) semester hours of credit with an overall grade point average of at least 2.0, and the high school's conferring a diploma recognizing graduation from the high school.

Policy No. 5106 of the School Board of Broward County stipulates that a student must complete two consecutive terms of at least 12 semester hours with an average of "C" or higher in order to receive a High School diploma.



Residency Information

Since minimal fees are assessed for Florida students, all applicants who are residents of Florida are required to submit a notarized residency statement as part of their application to BCC. Out-of-state or international students do not complete this statement.

College fees and tuition are based on the applicant's permanent residence, or if under 18, the permanent residence of parents or court-appointed guardian. To be a Florida resident, the applicant (or parent or guardian if applicant is under 18) must be a United States citizen, or have been admitted to this country as an immigrant, (have a "green card") and shall have been a resident of Florida for at least one year prior to the beginning of the college term for which the student is applying.

Enrollment in another Florida college or university does not establish residency.

Out-of-State

Out-of-state students pay a tuition fee in addition to the matriculation fee assessed to in-state students. It is helpful for the student if the Office of Admissions receives the application for admission and supporting credentials 30 days prior to the beginning of the term. International students should attempt to submit this informations 90 days prior to the beginning of the term.

The college must also be provided with local address, address and phone number of parents or guardian or emergency contact and the name of their local physician.

The college does not provide, recommend or supervise student housing. Students should allow themselves ample time to find suitable housing prior to the beginning of the term. Two or three months rent in advance is usually required.

Transfer and Visiting Students

Satisfactory grades and course credits earned at other regionally accredited colleges are acceptable for transfer to BCC. Official transcripts should be sent directly to the Office of Admissions from all colleges previously attended. A letter of good standing can be used in lieu of an official transcript.

Students from other colleges enrolling at BCC for only the spring and summer terms are classified as visiting or transient students. Visiting students should have clearance from their home college for the courses they plan to take at BCC so there will be no problems in acceptance of the courses in their program of study when they return to their home college.

International Students

The regular college admissions procedures apply to International students who must provide, at least 90 days in advance of the intended term of enrollment, the following:

(1) A completed official, foreign student admissions application; (2) A minimum score of 500 on the Test of English as a Foreign (TOEFL) Language if English is their second language. (3) A statement of financial resources available to support educational and living costs in the U.S.; (4) Transcripts of previous secondary education and post-secondary education, evidence of completion of secondary education or equivalent. An official translation also is required if the transcript is not in English. (5) A request for an I-20 - Cetificate of Eligibility for Acceptance.

Students need the I-20 in order to obtain a student visa to enter the U.S. International Students are required to enroll full time, make satisfactory progress each term while attending BCC and comply with all U.S. Immigration regulations.

The International student should have sufficient funds available when he/she arrives in the United States to cover college costs as well as immediate living expenses for at least three months.

Questions concerning U.S. Department of Justice, Immigration and Naturalization Service requirements, the I-20 and other visa information should be directed to the Office of Immigration and Naturalization Service. General information about admissions should be directed to the Office of Admissions, 225 E. Las Olas Blvd., Ft. Lauderdale, Florida.

Broward Community College does not provide, recommend or supervise student housing. Two or three months rent in advance is usually required. Students should allow adequate time before the beginning of a term to find suitable housing. A calendar providing recommended arrival dates for International students is available from the Office of Admissions.

Advisement and Counseling Services

BCC provides a professional advisement and counseling staff to assist students in planning academic, career and personal goals while attending the college. Members of the community and all new students entering BCC are provided an opportunity to work with a counselor or advisor in assessing their academic skills and deciding on career goals. Continuing students can visit the Counseling Office for assistance in resolving any problems affecting their success at BCC.

A Career Center and job placement office is available on each campus for the student in career exploration and finding an appropriate job.

Financial Aid

The Financial Aid Office assists students in obtaining basic grants, scholarships, loans and work-study opportunities.

Students should contact the Financial Aid Office well in advance of the beginning of the term for which they need assistance. Deadlines make it important for students to apply early.

Tuition Fees

Florida residents $19 per credit hour. Non-Florida residents $41 per credit hour.

Certain courses require special fees to cover materials or equipment.

Fees are due and payable in full at registration. All fees are subject to change.

Terms

BCC has three terms each year.

Term I begins during the last week in August

Term II begins the first week in January

Term IIIA begins the first week in May

Term IIIB begins the middle of June

Please check with the Registrar's Office for the exact starting dates.

Accreditation

Broward Community College is accredited by the Florida Department of Education and the Southern Association of Colleges and Schools.

US NPS

State Rule 6A-10.30 (The Gordon Rule)

State Rule 6A-10.30, otherwise known as the Gordon Rule, requires that students graduating with an Associate in Arts degree must meet the following provisions:

All students seeking an Associate in Arts degree must complete 6 hours of instruction in writing and must write 12,000 words in the areas of instructed composition. For most students, this portion of the requirement can be satisfied by taking ENC 1101 and ENC 1102 or ENC 1240. Secondly, students must write an additional 12,000 words during the remainder of their freshman and sophomore years.

At Broward Community College the courses that will satisfy the 12,000 word practice writing requirement will be designated by a "W" on the class schedule, and will be listed as part of Area 9 of the General Education Requirements for graduation. In each of the courses designated as "W," the students will be required to write 3,000 words. Thus, in order to complete the graduation requirement, each student must write 12,000 words under guided instruction, and write 12,000 words in four courses designated as "W." In all of the above courses, a grade of "C" or better is required to meet the AA degree requirement.

The mathematics requirement for State Rule 6A-10.30 states that students must complete 6 hours of college level algebra or above. Area 4 in the Catalog states the AA General Education Requirement mandated by the Gordon Rule. For most students, this requirement may be met by taking MAT 1033 and MGF 1202, with a grade of "C" or better.

Meeting the requirement of State Regulation 6A-10.30 is required of all students whether they be at State universities or community colleges, and must be completed by the end of the sophomore year. For more information regarding academic requirements of the Gordon Rule, contact either the English or Mathematics Department. For graduation requirements, see the requirements for an AA degree in the College Catalog.

College Level Academic Skills Project (CLASP)

In 1979 the Florida Legislature enacted CS/HB 1689, a bill designed to improve the quality of education in Florida. There were two goals of the bill:

1. To assure that students entering their freshman year are correctly placed so that they can acquire essential college-level skills in communications and computations.
2. To assure that students entering the junior year have acquired those skills that are essential to success in the upper division schools.

HOW WILL IT WORK?

After students apply to Broward Community College, they will be assessed for placement (including testing) so that they may register in the correct level of a communications or mathematics class—developmental, regular, or advanced/honors.

Just prior to graduation, students will be given an exit test on the skills that are considered eessential before they can enter the junior year at any Florida State University.

College Level Academic Skills Test (CLAST)

What Kind of Exit Test Will It Be?

The State of Florida has developed a test of college-level communication and computation skills. The test is called the College Level Academic Skills Test (CLAST).

The CLAST is designed to test the communication and computation skills that are judged by state university and community college faculty to be generally associated with successful performance and progression through the baccalaureate level. The test is required by Florida statutes and rules of the State Board of Education.

The CLAST is administered toward the end of the sophomore year to community college students who are completing Associate of Arts degree programs and to community college students who are completing Associate of Science degree programs *and* are seeking admission to upper division programs in state universities in Florida, as well as to university students who are completing their sophomore year. STUDENTS WHO DO NOT TAKE THE TEST WILL NOT BE AWARDED THE ASSOCIATE OF ARTS DEGREE, NOR WILL THEY BE ADMITTED TO UPPER DIVISION STATUS IN STATE UNIVERSITIES IN FLORIDA.

The CLAST requirements also apply to students transferring to state universities in Florida from private colleges in Florida and from out-of-state colleges.

Effective for any term beginning after August 1, 1984, the State Board of Education will establish minimum CLAST score standards for the award of the Associate of Arts degree and for admission to upper division status in state universities in Florida. Prior to August 1, 1984, the use of CLAST scores is limited to student counseling and the curriculum improvement.

The Counseling office located on each campus can tell students how and when to apply to take the CLAST. The Counseling office can provide a list of CLAST skills and can tell where the communication and computation skills are taught in the curriculum.

Counseling Office telephone numbers are the following:
